👤 CAREER OBJECTIVE

Passionate frontend developer with expertise in HTML, CSS, and JavaScript. Translating design concepts into pixel-perfect, responsive websites is my forte. Collaborative team player delivering high-quality projects on time. Constantly learning and staying updated on industry trends. Ready to contribute to your organization's success.

💼 EXPERIENCE

Frontend Developer Intern

Gomycode, Nigeria

- Involved in project-oriented education, acquiring comprehensive understanding of fundamental principles in software engineering and computing, such as Software Development Life Cycles, System Architecture and Design, and Testing.

- Trained in the methods of resolving issues through the application of Design and Critical thinking principles.

- Took part in the development of functional software using acquired programming abilities for the institution.

- Learnt Object Oriented Programming (OOP) and Database Management Systems.
